FACT and MFL have achieved lower capacity utilization during 2007-08 on account of financial constraints and unprecedented increase 'in the cost of inputs, which effected continuous production of fertilizers by these companies. Production of urea by Bramaputra Valley Fertilizer Corporation Ltd. (BVFCL) was also affected due to shut downs on account of technical problems and limitation of availability of gas.

Keeping in view the new investment policy announced by the Govt. of India recently, various Public Sector Undertaking/ Co-operatives like Rashtriya Chemicals & Fertilizers Ltd. (RCF), Krishak Bharati Cooperative Ltd. (KRIBHCO, National Fertilizers Limited(NFL) etc. are in the process of taking investments decisions for expansion of capacity, based on availably of assured supply of natural gas.
